

Razor Slim Profile Digital Muff

Product Description

The Razor Slim Profile Digital Muff provides hearing protection from loud noises and environments such as construction equipment or industrial job sites.

When powered on, the Razor Slim Muff detects any sound over 80dB and triggers the digital compression circuit to deaden all incoming sound.

 - SKU: GWP-SF-DRSEM-BLZ
 - UPC: 888151020685
- ❖ Color: High Visibility Green
 - SKU: GWP-SF-DRSEM-HVZ
 - UPC: 888151020692

Sound Levels

- ❖ When device is off:
 - Outside sound level is reduced by 22-23 dB
- ❖ When the device is powered on:
 - At minimum volume inside sound level will equal outside sound level
 - At maximum volume inside sound level is 5 times outside sound level, up to 80dB
- ❖ Outside sound levels of above 80 dB are compressed to maintain 80dB inside sound level
- ❖ Speakers will be muted if outside sound level is above 105dB
